If

[Case](#)

If you want me, just whisper you could let me know
Letting all my feelings go
Don't wanna be in love alone
If you need me, what you need to do is let me go
And if I come back you know
How wrong it feels to be aloneIt's sad that my love has gone away
And it's too bad the love I gave was too real to stay
Now loving you has become separate ways
So now I think, I gotta leave 'cuz I really need my space
YouIf you want me, just whisper you could let me know
Letting all my feelings go
Don't wanna be in love alone
If you need me, what you need to do is let me go
And if I come back you know
How wrong it feels to be aloneUnderstand that I don't really want to go away, no no
But you not trusting me, pushing me away
You seem to think that all I need is in and out from you
But I could go about anywhere
With someone to do the things you do
YouIf you want me, just whisper you could let me know
Letting all my feelings go
Don't wanna be in love alone
If you need me, what you need to do is let me go
And if I come back you know
How wrong it feels to be aloneBreak it down, break it down
Feels good
Excuse me
Whoa
Say whoa whoa
