Each to Each

The Gutter Twins

Cold outside long after dark
Youll find a stone in your heart
For time lets stand together
Well fall or well riseYou and I in secret style
Awaiting all for thee
You bet your lifeCome down slow and easy
Youll find a way, youll find a way
Deny the world will follow you
I know youll rise, I know youll riseSo keep it down
And it wont go away
Your secret style
It wont go awayAnd its right inside of me
And its right inside of meCome round, lets stand together
Well rise alone forever
Team of life, a secret style
Theyre waiting up for meCome down slow and easy
Youll find a way, well find a way
Deny the world will follow you
I know well rise, I know youll riseI know youll come alive
I know youll come alive
I know, I know, I know, I know
I know, I know, I know
