

# Party

Corey Smith

Well its Friday night and somebody better knock on wood  
I got my hand around this guitar and Im feelin pretty doggone good  
Dont pinch me if Im dreamin cause I dont wanna wake up now  
Ive been waitin on this moment ever since my Mama pushed me out Oh yeah theres a party, party  
One hell of a time of my life  
Oh yeah theres a party, party  
When I sing about my trouble and strife  
Oh yeah theres a party, party, party  
Oh theres a party here tonight All my friends come and listen to me play my songs  
They always drink too much jump and shout and start to sing along  
No one can understand it how do we keep selling the clubs out  
We aint even on the radio, whats the fussin all about Oh yeah theres a party, party  
One hell of a time of our lives  
Oh yeah theres a party, party  
Lets forget about our trouble and strife  
Oh yeah theres a party, party, party  
Oh theres a party here tonight Oh yeah theres a party, party here tonight  
Oh yeah theres a party, party here tonight  
Oh yeah theres a party, party  
And Im gonna sing about my trouble and strife  
Oh yeah theres a party, party  
One hell of a time of our life  
Oh yeah theres a party, party, party  
Oh theres a party here tonight
