

# Guts

## Thao & The Get Down Stay Down

I (quit) the count  
Till we meet again  
It does not matter now how it mattered then  
If the breeze leaves with the ones you love  
You go out and catch them  
The way my lazy arms stay, few can fathom I got the guts  
I don't need my blood  
I got the guts  
I don't need my blood  
If the breeze leaves with the ones I love  
I got the guts  
I don't need my blood You know I'm so easy to find  
You won't come get your girl  
You know I'm so easy to find  
You won't come get your girl  
You know I'm so easy to find  
You won't come get your girl I want peace  
Enough for two  
I want peace  
Enough for two  
How it felt (fell?) upon me  
A lifetime of sleep  
(Cut?) my breath and my memory I have a family with a,  
Pardon me  
Taught to be loyal  
Never shown loyalty I got the guts  
I don't need my blood  
I got the guts  
I don't need my blood  
If the breeze leaves with the ones I love  
I got the guts  
I don't need my blood What do you (decide?)  
You know I'm so easy to find  
You won't come get your girl  
You know I'm so easy to find  
You won't come get your girl  
You know I'm so easy to find  
You won't come get your girl What do you decide  
For me?

For me?
