Forever Again

Gene Watson

I wish I could step out of my mind
Then I could be someone thats never known you
But I cant change the way I am much less the way you feel
Or youd be loving me forever stillI cant stop the winter from turning into spring
Or summer giving way to autumn winds
But if I could take the world and make it face the other way
Then youd love me forever againIf I had a way of changing time
Id stay busy turning back the pages
If I could make a miracle, Id make one just for you
And youd be loving me forever tooI cant stop the winter from turning into spring
Or summer giving way to autumn winds
But if I could take the world and make it face the other way
Then youd love me forever again, youd love me forever again
