

Black Widow

Myah Marie

I'm a pretty pretty Rebel.
No you'll never find another girl like me.
I want it on another level.
No, you'll never find a girl who bites like me. I called you on the phone and you're hiding. oh-oh-oh
I know you locked the door, won't let me in. oh-no-oh I'm gonna crawl in your window
and no one's ever gonna know
I'm gonna come and take control
You can't leave. I'm gonna start from down below
And I'll be done before you know
I'm gonna come and take control
You won't breathe I'll eat you up alive
Swallow all your pride I'm gonna crawl in your window
and no one's ever gonna know
I'm gonna come and take control
That's the deal I'm a
Black Widow
I'm a
Black Widow
I'm a
Black Widow
I'm a
Black Wi---With my eight arms i can hold you.
There is no way I will ever let you go.
All your friends, they tried to warn you.
Boy, you had to take a chance and now you know. Just another name crossed off the list. oh-oh-oh
And when it's over, there's no goodbye kiss. no-no-oh I'm gonna crawl in your window
and no one's ever gonna know
I'm gonna come and take control
You can't leave. I'm gonna start from down below
And I'll be done before you know
I'm gonna come and take control
You won't breathe I'll eat you up alive
Swallow all your pride I'm gonna crawl in your window
and no one's ever gonna know
I'm gonna come and take control
That's the deal I'm a
Black Widow
I'm a
Black Widow

I'm a
Black Widow
I'm a
Black Wi---No
There's no time
For rescuing
No
You were just
a Fling yeah
Now
That the dark
is settling You can go
or you can go
or you can go
or you can go
or you can go I'm gonna crawl in your window
and no one's ever gonna know
I'm gonna come and take control
You can't leave. I'm gonna start from down below
And I'll be done before you know
I'm gonna come and take control
You won't breathe I'll eat you up alive
Swallow all your pride I'm gonna crawl in your window
and no one's ever gonna know
I'm gonna come and take control
That's the deal I'm a
Black Widow
I'm a
Black Widow
I'm a
Black Widow
I'm a
Black Wi---
