

# Like Soda

## Violent Soho

The heat it drowned itself and all the roads  
With rattles from all the pubs and pokies rooms... sound never goes  
They've given up the workers life  
For a moment it was clear and so precise And I'll say I don't mind  
I don't care  
I'll just say  
Whatever I don't mind  
We don't care  
We'll be here  
Forever And we don't mind  
We don't care  
We'll be here  
Forever Cus I burnt my life and I branded my soul  
Went to church and sung to a god  
And it breaks my heart  
This is the place where it starts Cus its this burnt life and it's great big world  
For we'll drive this peaceful moment  
I'll say it again  
Whatever happened to you my friend? And I'll say I don't mind  
I don't care  
I'll just say  
Whatever And we don't mind  
We don't care  
And we'll be here  
Forever It's the truth that keeps you warm and lets you fall down  
Like soda it will pop, yeah let it fall down Cus I've went to the pokies at a dead friends game  
Stayed in a pub and drink warm beer  
And I'll say thank you  
For all the greetings and gratitude Cus we don't play enough but we never shut up  
Talked to computers and made of drugs  
And I'll say it again  
What ever happened to you my friend And I'll say I don't mind  
I don't care  
I'll just say  
Whatever We don't mind  
We don't care  
And we'll be here  
Forever (We don't mind, we don't care, we don't mind)  
It's the truth that keeps you warm and lets you fall down

Like soda it will pop, yeah let it fall down  
Let it fall down  
Let it go It's the truth that keeps you warm and lets you fall down  
Like soda it will pop, yeah let it fall down  
It's the truth that keeps you warm and lets you fall down  
Like soda it will pop, yeah let it fall down  
Let it fall down  
Let it fall down  
Let it go
