

Bite The Bullet

Dragster

Ya I understand your every, fear
Your every pain your every, tear
With every struggle you conquer
 Turn heart to steel
And will to iron You want more?
 You'll get it
 Determined ferocious
 (What?)
 Grit down and bite the bullet
 When dare to unbind
Smash and redefine The hate you feel is nothin', more
 Than love you feel to win this, war
 This battle that rages inside you
 With bloodlust
You must unchain your shackles You want more?
 You'll get it
 Determined ferocious
 (What?)
 Grit down and bite the bullet
 When dare to unbind
Smash and redefine Lion hearts
 Never give in
 Unsatisfy
 Every weakness
 Lion hearts
 Never give in
 (Now)
 Unsatisfy
 (Fy)
Every weakness show You want more?
 You'll get it
 Determined ferocious
 Grit down and bite the bullet
 When dare to unbind
 Smash and redefine
