

Mind

Kladsman

Come baby, come close to me

Let me love you

Come baby, come close to me

Let me feel you

Look at each other

Go away

Go away

Go away

Go away

Well, mutually, mentally

Molested children of a mother

Mutually, mentally

Molested children of sin

Oh no, the ever so popular

Beating that took you under

Oh no, the ever so popular

Beating that broke your skin

Free thinkers are dangerous

Blame, hate, for fate's seed

Go away

Go away

Go away

Go away

Oh, you need the ones you love

Love the ones you need

Need the ones you love

And love the ones you bleed

Lives rearranged and lives in my range

Can you see?

Lives rearranged and lives in my range

Can you see?

Free thinkers are dangerous

Blame, hate, for fate's, seed

Die!

Die!

Die!

Die!

Gonna let you mother fuckers die

Look at each other

Look at each other

Look at each other
