

Chainbreaker

Primal Fear

Out of this world in another dimension
Two-thousand light years from home
Defending the faith he fights for a mission
But he is standing alone Just like an outlaw he's fighting for freedom
Defeating the enemy's pride
Keepin' it all under surveillance tonight Chainbreaker
He fights for the right
Chainbreaker Watchin' the dark he suppresses the evil
Raisin' the spirit up high
Beware of the dead this place is so lethal
He's livin' a dangerous lie Just like an outlaw he's fighting for freedom
Defeating the enemy's pride
Keepin' it all under surveillance tonight Chainbreaker
He fights for the right
Chainbreaker Devastating disillusion no solution
Everlasting resurrection with dejection
Degradation desperation lost emotion
Aggravation desolation in perfection Just like an outlaw he's fighting for freedom
Defeating the enemy's pride
Keepin' it all under surveillance tonight Chainbreaker
He fights for the right
