

# Man Like Me

## Dylan LeBlanc

The moment I gave in  
to the pleasures of man  
some they called it weakness  
while others called it sin  
little brother heres the trouble that I'm in  
well I've made a lot of money  
and I've bought a lot of things  
and I hear the many women  
that tried to marry me  
but the part I never came before the place  
brother long gone  
things I said and done  
have always been completely different things  
love (the young?) I stay  
in the morning here's today  
trying to find a better way to live  
a man like me  
I remember as a young man  
I played the hand they dealt  
while I tried to bury  
all the ways it felt  
there's a man I thought she knew me  
fairly well  
and if you want to find  
that place and time  
you can call upon a decent man like me  
will go on (the day of?)  
be fair the world  
cause the move's intact  
see that sun run beat  
in a man like me
