

With All My Love

Melanie De Biasio

Mama look at my life
This is a lonely journey
Mama let's try another time
'Cause I can't carry on right now
Please makes my day
Too much abuses I see
Too much desire in between
We'll make it through
That's what we do
Mama I hear you cry
All this anger I'll put aside
My tears I know won't beat the river in your eyes
And with all my love
I will make them dry
Yes with all my love Epiphany swells and waits
Scream it baby scream it
Seeds shoot towards the sun
Seed soften in a yellow sound
Riptides build into the waves
Scream it baby scream it
Seed shoot towards the sun
