

# Worse Dreams

## Soundgarden

Let's run around you now and let it fall apart  
Put it back again and find never it beats but it's not the same  
And you've never been this sure just how it looked when it started  
Turned around again now and do it all over and over I get down  
From a bad dream  
When it's gone  
Worse dreams are born Spinning you around in a fire  
By the old one and free Everybody in sit down and keep on holding on  
Throw your arms around, black clouds 'round them up  
Raise walking bodies in the ground right now bounce it up  
Feeling warm and hanging on the tail of the sunrise that you can't let go I get down  
From a bad dream  
When it's gone  
Worse dreams are born I get down  
From a sad dream  
When it's gone  
Worse dreams are born I get down  
From a bad dream  
When it's gone  
Worse dreams are born I get down  
From a sad dream  
When it's gone  
Worse dreams are born Worse dreams are born  
Worse dreams are born  
Worse dreams are born Let's go around  
Let's go around
