

# Clear Across the Valley Tonight

Mike Strasser

The day is done; the dinner too  
The dishes washed and dried  
Let's go for a walk tonight  
It's so lovely outside  
I'll go grab your sweater  
Hey, we'll walk around the park  
Catch the last rays of sunshine  
The first shadows of dark.

## CHORUS

There's a cool breeze coming off the delta  
The summer's heat slowly does subside  
The trees grab the breeze and start to dancing  
So lovely as they sway side to side  
And the little stars gradually awaken  
They're blinking dimly now in the evening sky  
And the quarter moon sails low above the mountain  
Hey, it's Clear Across the Valley Tonight.

Clear Across the Valley like that night long ago  
When I drove Clear Across the Valley  
To say, "I love you so"  
And though many years have parted now since you became my bride  
Hey it's Clear Across the Valley Tonight.

## 2nd Verse.

Take my hand, take my arm, you know you have my heart  
Walking side by side now as we have done from the start.  
Step by step, Day by day, year after year  
Straight into this evening; so beautiful so clear.

## CHORUS

There's a cool breeze coming off the delta  
The summer's heat slowly does subside  
The trees grab the breeze and start to dancing  
So lovely as they sway side to side  
And the little stars now they have awakened  
They're shining brightly now in that nighttime sky  
And the quarter moon sails high above the mountain

Hey, it's Clear Across the Valley Tonight.

Clear Across the Valley like that night long ago

When I drove Clear Across the Valley

I had to hold you close

And though many years have parted now since you became my bride

Hey it's Clear Across the Valley

Clear Across the Valley

Clear Across the Valley tonight.
