

# Blinded No More

## Sonata Arctica

Advisory - the following lyrics contain explicit language:

Your pretty face seduced me,  
Blinded me from how you used me  
I walked the long way home,  
only to get hurt by you again  
The longest glance, oh,  
What illusions did I have of you?  
A lone reflection splitting in two  
You found all seven ways to keep me near,  
Near within your reach  
You sure knew how to harness love,  
But never made me more than want you  
I'm not sorry, you will never get more out of me  
'Cause I am blinded no more  
You sucked out my will to live  
You gave me the crown, and killed...  
High road would have none to regret  
Never left, I took the low road instead  
Love is a little death between two little lives,  
Nothing more  
Now I have myself to live for...  
You sucked out my will to live  
You gave me the crown, and killed...  
High road would have none to regret  
Never left, I took the low road instead  
Oh, my life out of my hands  
I always gave eternal love another chance...  
Say the words, I wanna hear... all over again  
Consuming love, my only reason...  
Nothing is service free,  
Such things cannot be healed,  
That will do fine for me,  
So come here, come, come, come...  
And suck out my will to live  
You gave me the crown, and killed...  
High road would have none to regret  
Never left, I took the low road instead  
Oh...  
In the same nightmare again...  
Oh...  
Dark tunnel of love will never end  
Oh...  
Taken for granted again  
Oh...  
Too weak to say it is over, all over  
[SOLO]  
Oh, my life out of my hands

I always gave eternal love another chance...  
Say the words, I wanna hear... all over again  
Consuming love, my only reason... We always seem to end up here and break a lance  
Ready to give eternal love another chance...  
You say the words, I wanna hear... all over again  
Lust is my all consuming reason...  
Now, take me again...
