

# Let Me Explain

**Bryson Tiller**

It's been a long time  
I guess I just miss the old days  
You remember, all them times You used to come keep me company  
Tell me you love me and just me  
Oh and it took a while to trust me  
    Girl I had to work for it  
    Still you don't judge me  
    I love the way you touch me  
I'm feeling like I'm 'bout to lose you  
    With all the shady shit I do to you  
    Some things are better left unsaid  
    I can't get it out my head  
        Better left unsaid  
        Everything that I regret  
No lie girl when I tell you, you a blessing  
    Girl just let me make corrections, yeah  
    Damn, I've been stressing yeah  
    I've been really tripping babe  
        I learned my lesson, yeah  
I still need you to listen, oh babe Listen to me yeah  
    Oh if you'd just let me explain  
    If you'd just let me explain  
        Baby, oh  
        Listen to me yeah  
    Oh if you'd just let me explain  
    If you'd just let me explain  
        Baby, oh  
        Yeah for sure  
        Don't be afraid  
Don't be afraid Don't be afraid to tell me that it's over  
    Tell me that it's over  
    No, I don't deserve you, the shit I never told you  
    There's too many things, I can't look you in the face  
I just grab you by the waist and act like everything's okay  
    Bare with me girl, I'm trying to be honest  
    Tell you what you need to hear, just not yet  
    I'm barely getting started, I'm being cautious  
        Girl that's the hardest  
All we been through, look what we've been through

Look at Jay and Bey, they going through some shit too  
We made it through the struggle let's make it through this too  
I got a confession, baby will you listen to it?
