

Let Me Love You Up

[Sophie B. Hawkins](#)

Baby I dreamed of you last night
It was a lovely dream alright
I wish that this one could come true
'Cause it was made for you and me So I'm Scorpio and Scorpions know
What is soon to come
How can I help who I am
It's the truth I'm no lamb
But I won't do you no harm Let me love, let me love, let me love, let me love you up
Sil te plait
Let me love, let me love, let me love, let me love you up
Aah mon cocur francais Te sourviens tu de la nuit du mange
Pour moi c'etait vrai happiness
And it could only be shared by us two
Comme une bissou Tu me manques tu me manques
Tu me donnes des frissons
Don't be long j'ai besoin de tu
Enchante c'est Paris
Au revoir c'est la vie
But I won't let go of you Let me love, let me love, let me love, let me love you up
Aah doucement oui
Let me love, let me love, let me love, let me love you up
Maintenant ici Let me love, let me love, let me love, let me love you up
S'il te plait
Let me love, let me love, let me love, let me love you up
Aah mon coeur francais I don't care
Tous sont juste dans l'amour et la guerre
How can we speak of love that runs so deep
Ssh secretly
