

# Up to the Surface

## Cloud Nothings

I came up to the surface  
Released the air  
With no words to remember  
What happened there I saw life in the shadows  
On foreign lines  
I knew peace in the terror There was a night of war away  
A row of islands all ablaze  
The sun circled 'round the end  
In darkness I've evolved again Alone in the city, we're here on land  
Cold eyes all around me where I stand  
A frozen planet, how could love remain?  
You left me alone Came up to the surface  
Released the air  
With no words to remember  
What happened there I saw life in the shadows  
On foreign lines  
I knew peace in the terror  
Of the mind
