I Can Almost See Them

Tomahawk

Up Scope
But I can almost see them
Just out of focus, you're so far away
Right out of focus, you're so far away
Down periscope
We all need, all need some rope

But I can almost see them
Just out of focus, you're so far away
Twist the barrel, not so far away
We all need some rope every now and then
We all need some rope every now and then
But I can almost see them
