

# Precious

## JD McPherson

Twilight fades, it's a precious thing  
Eventide under lock and key  
It's so heavenly right now  
"A Letter to Elise" played on repeat  
Playing songs of the minor key was my policy, but now...  
What does it mean when your heart vibrates?  
I thought it was a bad sign  
I was living in a sadder time and now it's done passed on  
It's so precious, precious to me  
You don't know how I used to be.  
The autumn leaves cascade through the window  
so quietly, then finally touch down  
Twilight fades, it's a precious thing  
Eventide under lock and key  
It's so heavenly right now  
What does it mean when your blood vibrates? I thought it was a bad sign  
There was a word I never tried to speak  
Now it's a battle cry  
It's so precious, precious to me
