

# Fools Thin Air

[Emmylou Harris](#)

There's a sweet dream on your pillow  
There's a sad song in your eyes  
There's a sunshine behind a dark cloud  
Up above you in fools thin air She's an old friend she's a good friend  
Hair of golden eyes of satin  
She's a won't be long friend till she's gone friend  
And leaves you hangin in fools thin air Like a lion rules the jungle  
You're just flyin' through fools thin air  
That don't mean nothin' when you've got something  
You believe in to get you there She's an old friend she's a good friend  
Hair of golden eyes of satin  
She's a won't be long friend till she's gone friend  
And leaves you hangin in fools thin air
