Turn Off The Lights

Lights Over Paris

I met a girl
She's super cool
I love the city lights
She loves the pool
I'm signing autographs
She writes at school
She's taking photographs that make me wanna drool

I'm like Yeah-Yeah
You know I'm into you
She's like Uh-Oh
Let me think this through
Alright just don't go
We might be blind since its so bright now BabyÂ

Turn off the lights
I know the little things you like
And I can show you how to go all night
Turn off the Lights
Ba-Ba-Baby you know you're my type
So stay with me and hit the switch tonight
Turn off the lights (Whoa)
Turn off the lights (Yeah-ah-ah-ah-ah-ah)

She doesn't dance
She tried to sing
But she's good when it's comes to her and me
I threw my phone so it's only her and me
I think the guys hate that its only her and me

I'm like Yeah-Yeah
I'm still into you
She's like Whoa-Oh
I know-oh I am to
Alright lets go-go
And get oh so blind and start the night right baby

Hey Lover
Turn off the lights
You know we'll do the things you really like
I know you'll do the things I really like
Right now I'd like for you...

Turn off the lights
I know the little things you like
And I can show you how to go all night
Turn off the Lights
Ba-ba-baby you know you're my type
So stay with me and hit the switch tonight
Turn off the lights

I know the little things you like
And I can show you how to go all night
Turn off the Lights
Ba-ba-baby you know you're my type
So stay with me and hit the switch tonight
