

# Airport Kiss

Jon Wolfe

Girl I know we're in the middle of a bar  
But the way you're looking  
I don't care where we are  
I want everyone to stare  
Say look at those fools  
I want everyone to say  
Why don'tcha get a room

Give me an airport kiss  
Like you're gonna miss me  
So bad  
Like I'm going somewhere  
So far  
So fast  
Might not come back  
Don't stop  
Like that plane is 'bout to take off  
Come on make it long  
Make a scene  
Make it slow  
Baby put on a show with your lips  
Give me an airport kiss

Like we're in a movie  
Like I'm about to board  
Like a move across country  
Or going off to war  
Even though it's just another Saturday night  
Yeah, I wanna get high  
Without taking a flight  
Give me an airport kiss

Like you're gonna miss me  
So bad  
Like I'm going somewhere  
So far  
So fast  
Might not come back  
Don't stop

Like that plane's bout to take off  
Come on make it long  
    Make a scene  
    Make it slow  
Baby put on a show with your lips  
    Give me an airport kiss

    Like I'm about to leave  
    Like this could be the last  
    Baby grab me by the shirt  
        And pull me back

    Give me an airport kiss  
    Like you're gonna miss me  
        So bad  
    Like I'm going somewhere  
        So far  
        So fast  
    Might not come back

    Don't stop  
Like that plane's bout to take off  
    Come on make it long  
        Make a scene  
        Make it slow  
Baby put on a show with your lips  
    Even in a place like this  
    Give me an airport kiss

Just like you're gonna miss me baby  
    Give me an airport kiss
