It Sounds Prettier In Spanish

Name Taken

And they say, Let's go this way
You can't go home again unless you shed your skin
The words I meant to leave left out, reach in deeper
The words I meant to leave left out, darker, darkerDont worry, I cant kill the memory
(I wish I could)Paint it black, we are white, I cannot come clean, come clean
Run me away, Ill spend my life and I wont waste your time
The words I meant to leave left out, oh, come on
The way you felt to just get out, dont release meDont worry, I cant kill the memory
(I wish I could)Paint it black, we are white, I cannot come clean, come clean
Break down, Ill fade away, a life worth living cant be saved
