# Second Chances

## Mercutio

If I could go back in time
Then I'd have to try
To stay close to you

I would stay by your side
I'd put up a fight
To keep our love true

Would it last?
Could I change the past?
Would I be happy
Forever with you?
Forever with you
Forever with you

Though you hurt my pride
I can't deny
It felt right with you

If second chances exist
I just need to one kiss
To know that it's true

Would it last?
Could I change the past?
Would we be happy?
Would our love stay true?
Would our love stay true?
Would our love stay true?

Would it last?
Could I change the past?
Would we be happy?
Would our love stay true?
Would our love stay true?
Would our love stay true?
