

Love & Death

Tokio Hotel

I can give you, you can give me something, everything
You are with me, I am with you always, join me in Love and death, love and death
Don't you mess, don't you mess with my heart
Love and death, love and death
Don't you mess, don't you mess with my heart
With my heart, with my heart Fragile pieces, don't regret the sorrows that we've seen
Take it with us, step into to my world, join me in Love and death, love and death
Don't you mess, don't you mess with my heart
Love and death, love and death
Don't you mess, don't you mess with my heart
With my heart, with my heart All the pain that we've been through
I've been dying to save you
Feel the blood in my veins flow
I've been dying to save you I have been watching you swim
I'll just seen you drown as a tragedy of comedy
With my heart Love and death
Don't you mess, don't you mess with my heart
With my heart
Love and death, love and death
Don't you mess, don't you mess with my heart Love
Death
Love
Death
