Make Believe

Kavana

It's possible for us to dream together,
Do you think that we can really make thing matter.
There's a place where no one really seems to card,
The two of us make it anywhere.
Inspiration come to me,
Whenever I can see beyond the rain.
I close my eyes,
Imagine times,
I spend my hours looking for sunny days.
And you know, if you.....
Make believe with me and we will see where it takes us.
Gotta hold on tight,
Cos we're gonna fly high.
Give me sometime and I will protect you.
Tell me all your secrets,
And I will tell you mine.
Do you think that this could really last forever.
Can't deny that I have always craved this pleasure.
Do you believe that we have ever met before.
Why don't you follow me through this open door.
It's possible for us to dream together.
Do you yhink this could really last forever.
Is it possible for us to dream together.
Do you think that this could really last forever.
