

# Shoot The Moon

## Clique Girlz

[Destinee]

Seems like your fading

Wanna go in alone

Hear me out,

One more song

Roll down the window

You can say your piece

Every single word,

Out on the breeze [ALL]

Hold on, don't be in a hurry

Things can move so slowly

When you want to fly

[ALL]

Call it up, keep it real

Let me show you how it feels

Live your life,

Everyday is something new

See the light, find yourself

Get your feet up off the ground

Take the hand that you're given

And shoot the moon [Paris]

Don't get me wrong now

There's a battle ahead

Wounded hearts,

Always mend [ALL]

I know I can hear you crying

Things just move so slowly

When you want to fly

[All]

Call it up, keep it real

Let me show you how it feels

Live your life,

Everyday is something new

See the light, find yourself

Get your feet up off the ground

Take the hand that you're given

And shoot the moon [ALL]

Whoa whoa whoa

Whoa whoa, yeah

Whoa whoa whoa,  
Yeah yeah [ALL]  
More than a million miles  
More than the open sky  
Big dreams can take you higher  
Don't you stop trying [Paris]  
Call it up, keep it real  
Let me show you how it feels  
Live your life,  
Everyday is something new [All]  
See the light, find yourself  
Get your feet up off the ground  
Take the hand that you're given  
And shoot the moon Call it up, keep it real  
Let me show you how it feels  
Live your life,  
Everyday is something new [Destinee]  
Is something something new [All]  
See the light, find yourself  
Get your feet up off the ground  
Take the hand that you're given  
And shoot the moon [ALL]  
Whoa whoa whoa, yeah
