

# DARK ENOUGH

## HEALTH

Blink...  
So what?  
It's hard to tell the difference  
We cheat  
Why not?  
It's hard to know what you want Does it make a difference how I feel  
As long as I come back to you?  
Does it make a difference if it's real  
As long as I still say I love you  
Breathe  
Why not?  
It's hard to know it stops  
We cheat  
So what?  
It's hard to know the reasons why Does it make a difference how I feel  
As long as I come back to you?  
Does it make a difference if it's real  
As long as I still say I love you Call for blood  
Where you don't know what happened  
It's dark enough  
If you don't know the difference Does it make a difference how I feel  
As long as I come back to you?  
Does it make a difference if it's real  
As long as I still say I love you  
DARK ENOUGH  
You don't know what happened  
And it's not for blood  
If you don't know the difference
