# How Is It

## Dolorean

How is it we have just known of each other
And we talk like old friends
And we kiss like young lovers
And we have nowhere to stand
Except next to one another
How, how, how, how, how, how is it?How is it that just weeks before we met
We dealt with all our bullshit
Turned the page on pain and regret
Our hearts exchanged blank checks
For any amount to cover any debt
How, how, how, how, how, how is it?How is it that we swim and drink pink wine
The richest kids without a dime
Our bank accounts are filled with time
Plenty of trips and country rhymes
How, how, how, how, how, how is it?
