Trial By Error

Distorted Penguins

How can I pass the time
Look at you and make a rhyme
Tell me what else could I say
All I care's about today
All I care's about today
Ask me how else could I love
Tell me how you are above
Everybody over here
Well you wouldn't dare come nearI try so hard to show you what I feel for you
I try real hard to convince myself it matters too
Every now and then I think my feelings maybe gone
Every now and then I think about this all night long
Send me word about my flaws
Don't ask why it's just because
Wonder why I am so feared
Ponder why I am so wierd
Wonder why I am so wierd
Look at me funny as you can
Not your ordinary man
Check me deeper down inside
Only got one thing to hideHere we are now once again
Don't care what I recommend
Here we are now once again
