

# Trial By Error

## Distorted Penguins

How can I pass the time  
Look at you and make a rhyme  
Tell me what else could I say  
All I care's about today  
All I care's about today  
Ask me how else could I love  
Tell me how you are above  
Everybody over here  
Well you wouldn't dare come near I try so hard to show you what I feel for you  
I try real hard to convince myself it matters too  
Every now and then I think my feelings maybe gone  
Every now and then I think about this all night long  
Send me word about my flaws  
Don't ask why it's just because  
Wonder why I am so feared  
Ponder why I am so wierd  
Wonder why I am so wierd  
Look at me funny as you can  
Not your ordinary man  
Check me deeper down inside  
Only got one thing to hide Here we are now once again  
Don't care what I recommend  
Here we are now once again
