

# Champion

J. Holiday

The definition of a champion

Its you

Whenever you decide to be that.This is for my champions

This is for my champions

Okay, alright, uh huh, lets go.Its been 40 days, and 40 nights

Ive been hustlin on my grind for a long time

I give anything, i made sacrifice

Matter of fact i put a lot of shit on the line.I gave my love(gave my love)

Gave my tears(gave my tears)

Gave my heart(gave my heart)

Faced my fears(faced my fears)

And now im standin right here, cuz im the livin version of a champion.See im the champion, haters be talkin  
when they see me but im not hearin em.

Cuz they just thinkin they wanna be me cuz im killin em.

All be cause im killin em.

But haters relax cuz you just gotta deal with em.Im the champion.

You ain't ever gunna be able to stop me, cuz its ot in my genes

See im a champion.

If you got problems with me, you can step in my ring.

I dont ever run.

You ain't never gunna be able to make me give up because imma champion, imma champion.Don't let nobody  
say what you can do

You better push em out the way and make your move, okay

You never let nobody get in your way.I gave my love(gave my love)

Gave my tears(gave my tears)

Gave my heart(gave my heart)

Faced my fears(faced my fears)

And now im standin right here, cuz im the livin version of a champion.See this goes out to the block and the  
people in the club when we make the beat rock, see.

I know what it is, tell me if you feel me

Just lift your voice and say(lift your voice and say).See im the champion, haters be talkin when they see me but  
im not hearin em.

Cuz they just thinkin they wanna be me cuz im killin em.

All be cause im killin em.

But haters relax cuz you just gotta deal with em.Im the champion.

You ain't ever gunna be able to stop me, cuz its not in my genes, see I'm a champion.

If you got problems with me, you can step in my ring.

I dont ever run.

You ain't never gunna be able to make me give up because imma champion, imma champion.See I'm a

champion.

You aint ever gunna be able to stop me, cuz its not in my genes, im a champion.

Oh I'm a champion.
