

Damocles

Fightstar

Gut the animals, they won't feel a thing
You're all pigs in shit
You should just call your mothers out
They'd be so proud of you
As you celebrate human suffering You make it obvious
Should we hang them high up under the gallows
Are we ever going to learn
Are you ever going to value this life We are privileged, we are all obliged
Just go fuck yourself, I am your sword of Damocles
Get down on your knees
Will you have mercy on us please How did we all fall down You make it obvious
Should we hang them high up under the gallows
Are we ever going to learn
Are you ever going to value this life You live like animals, now it's your turn
We take to the skies as you bury yourself
