

# Our Song

Robert Plant

Our song, we used to call it 'Our Song'  
It helped us say hello once  
It made us fall in love once  
Without knowing  
And how we tried so not to show it  
Even though we didn't know it Our song became just a little bit sadder  
But it didn't seem to matter  
Even when I kissed you  
I couldn't please you, oh  
And then all at once our love was gone  
All you left me was our song Every time I hear that song I could cry  
Now you don't belong, no no no we've said our goodbye  
I'm still wondering why  
Oh yeah, those tears in my eyes, oh, oh Our love started like a song, oh  
But the melody went wrong  
There's nothing left to do now  
So I look around for someone new  
Someone who is very, very, very lonely too  
Then I won't sing our song, oh no no [Incomprehensible]
