

# Fires

## Augustine

Baby, darling, doll face, honey  
Now I don't mean to cause you worry  
    It's only hands in my pocket  
    And the queen on my money  
Did you know I've been wanting you?  
    So leave your locks on the latches  
    If you bring the water  
    I'll bring the matches  
    'Cause we are fires in the night  
        We are fires in the night  
        Let us bathe you in our heart  
        'Cause we are fires in the night  
            Come on get up Romeo  
Don't you know what the time is?  
    It's the fall of rock 'n' roll  
    That's what the news said  
Did you know I've been wanting you?  
    So leave your locks on the latches  
If you bring the water, I'll bring the matches  
    'Cause we are fires in the night  
        We are fires in the night  
        Let us bathe you in our heart  
        'Cause we are fires in the night  
            We are fires in the night  
            We are fires in the night  
            Let us bathe you in our life  
            We are fires in the night
