

Hope On Fire

Vienna Teng

Gotta fight, gotta strike
'Cause there's no turnin' away
From what you don't want to know
Gotta see gotta be
If they're all goin' astray
Don't let them take you in tow You're a one-man shift in the weather
You're the woman who just won't sell
Climbing up and ringing the bell Ooh, you're gonna make your mark this time
Ooh, you're gonna set your hope on fire Gotta leave, gotta bleed
You've gotta stop lyin' still
'Cause this is no kind of life
You don't need guarantees
You just want somethin' to build
Before you turn to the knife When the streets are a flood like a fever
It's a holiday of the new
We're coming closer now to the truth Ooh, you're gonna make your mark this time
Ooh, you're gonna set your hope on fire Gotta move, gotta choose
You've got a difference to make
Don't watch it happen again
Gotta change rearrange
Something's bendin' to break
It's just a matter of when Ooh, you're gonna make your mark this time
Ooh, you're gonna set your hope on fire Ooh, you're gonna make your mark this time
Ooh, you're gonna set your hope on fire
Ooh, you're gonna set your hope on fire
