

What Would You Have Me Do

Greg Hvnsen

What would you have me do?
Where would you have me go?
Tell me to fly away,
I'll spread my wings and go

Tell me to stay, I'll lay back down
Drift away without a sound
Oh, keep on framing a frame of you
Everyday's a new shade of you, ey

What would you have me do?
Where would you have me go?
What would you have me do?
Where would you have me go?

What would you have me do?
Where would you have me go?
When will you understand?
It's not the same anymore

You buried me deep under you
The day I die it's not ???
Oh, I can't be say this time it's true
Doing my best to get through to you, ey

What would you have me do?
Where would you have me go?
What would you have me do?
Where would you have me go?

(x2)

I get so high I could touch the sky
I get so high I could kiss the sky
But you bring me back down low
You're always bringing me down
