

# Forever Mine

## Andra Day

My heart has been a chessboard  
Making moves and losing out  
Played so many times before  
And there ain't nothing to brag about  
Why this must be a new brew  
When you caught him singing Blue Moon  
You turn me all the way around  
And I'm tired of the fine line

I just want you to be forever mine  
Be forever mine

When there's nothing I can sing now  
That ain't been sung before  
But your love is a standout  
So gon' ahead and take the floor  
You had to jimmy my heart  
Now I'm stuck in your ...  
Pick me up, don't ever put me down  
Look I'm tired of the fine line

I just want you to be forever mine  
I want you to be forever mine

The way that you move, never seen it before  
Lookin' for my heart, can't find it no more  
You ransom my heart and I get that reward  
Went in the ground like a trojan horse  
Everytime  
You got me shook like ...  
Come out of nowhere, come mess with my life  
I just want you to be forever mine

Be forever mine  
Be forever mine

Oh but you was cookin' up a new stew  
Must have put something in my food  
Cause now I'm lost up in the clouds

Oh and I'm tired of the fine line

I just want you to be forever mine

Oh you gotta be, be forever mine
