Smart

Alex Dias

Hey, it's late
And I can barely see straight
You're barely standing out
You talk, you feel
You wanted something that's real
I am pretending nowI know that you're smart
You mentioned it before
You can read and write, I'll bet
Well baby, you performAim low, you just met me I know
But I feel something right now
So aim low, just let yourself go
All I need is tonight, yeahTonight could be
Kept between you and me
I don't need to know your name
Your aim is off
Just boys in here and they're soft
I'll give you something to tameI know that you're smart
You mentioned it before
You can read and write, I'll bet
Well baby, you performI know that you're smart
You mentioned it before
You can read and write, I'll bet
Well baby, you performAim low, you just met me I know
But I feel something right now
So aim low, just let yourself go
All I need is tonight, yeah
