

# Entertain Me

## Soft Cell

Trying to please all these people around me  
Is trying to reach for the moon  
(The moon)  
I see their faces looking so empty saying  
I hope that they'll finish soon  
(So soon) Could be a chat show  
(Yap yap yap)  
Could be a go go, reaction would be the same  
(The same)  
So here I go though why I don't know  
Trying to prove myself again Entertain me I'm as blank as can be  
And I've seen it before  
And I've done it before  
And I think that I like it  
But no I don't like it  
It just goes on over and over  
And over and over and over again I try to give them all of my best  
And it's taking a turn for the worst  
(Oh no)  
Things going wrong, start to sing the wrong song  
I think that we must be cursed  
(You betcha) Playing the wrong tune, hitting the wrong note  
This is where my nerves become frayed  
It's falling apart why did we ever start?  
And do you think we'll be paid  
(No) Entertain me I'm as blank as can be  
And I've seen it before  
And I've done it before  
And I think that I like it  
But no I don't like it  
It just goes on over and over  
And over and over and over again  
Over and over again Build 'em up, knock 'em down  
Build 'em up, knock 'em down  
Build 'em up, knock 'em down  
Build 'em up, knock 'em down  
Build 'em up, knock 'em down I see a movement down in the front row  
Maybe it's just a mistake  
She's smiling at me but he's frowning at me

(Hello, goodbye)  
Which conclusion do I make  
Fold all your arms and look straight ahead at this  
Puppet on a string  
You're feeling confused but you've made a decision  
You don't like anything  
Entertain me  
I'm as blank as can be  
And I've seen it before  
And I've done it before  
And I think that I like it  
But no I don't like it  
It just goes on over and over  
And over and over and over  
And over and over again  
Build 'em up, knock them down  
Build 'em up, knock them down  
Build 'em up, knock them down  
Build 'em up, knock them down  
Entertain me  
I'm as blank as can be  
And I've seen it before  
And I've done it before  
And I think that I like it  
But no I don't like it  
It just goes on over and over  
And over and over and over  
And over and over again
