

# I'm Here (feat. The Eden Project)

**Rob Gasser**

I've got a question  
If you'd hear me out, out  
In your defense, you  
Never had a chanceSo tell me straight  
I won't go  
This is our time now, I'm sure  
Make no mistake  
That we are  
Closer than we're farAnd brace for impact  
You fight your fears inside  
And brace for impact  
I'm the future's engineer  
And baby, I'm hereBaby, I'm here...Baby, I'm here...Baby, I'm here...Baby, I'm hereI've got a question  
If you'd hear me out, out  
In your defense, you  
Never had a chanceSo tell me straight  
I won't go  
This is our time now, I'm sure  
Make no mistake  
That we are  
Closer than we're farAnd brace for impact  
You fight your fears inside  
And brace for impact  
I'm the future's engineer  
And baby, I'm hereBaby, I'm here...Baby, I'm hereAnd brace for impact  
You fight your fears inside  
And brace for impact  
I'm the future's engineer  
And baby, I'm hereBaby, I'm here...Baby, I'm here
