Already Gone

Further Seems Forever

Time takes a hold
I know you're waiting
But now you're fading from me
Hope against hope
I heard you callin' out
But now you're fallin' out of reach
Come back alright
Come back alright
Come back, I can't let you go
I want you to know
You were already
Already gone aren't you?
Already gone aren't you?
Already, can't let you go
Already gone aren't you?
Already gone aren't you?
Already, can't let you go
Hope against hope
I know you're waitin'
But now you're fadin' from me
Time takes a hold
I hear you callin' out
But now you're fallin' out of reach
Come back alright
Come back alright
Come back, I can't let you go
I want you to know
You were already
Already gone aren't you?
Already gone aren't you?
Already, can't let you go
Already gone aren't you?
Already gone aren't you?
Already, can't let you go
Come back alright
Come back alright
Come back, I can't let you go
Come back alright
Come back alright

Come back, I can't let you go
Already gone aren't you?
Already gone aren't you?
Already, can't let you go
