

# More Than Just a Chance

## Waverland

1st Verse:

The sun says high noon  
I look at you - could it be true  
we left temptations on the floor  
its not a stance - we wanted more  
and now we're standing in the park  
your head is turned and faced away  
its like you're beautiful at bay  
i cannot think - what do I say?

Chorus:

Just then you turned and you looked my way  
last night we're dancing the night away  
i see it in your eyes it true  
you see me standing next to you  
we didn't know  
last night while we were dancing slow  
that night that we would cross paths  
last night was more than just  
more than just a chance

2nd Verse:

You're standing by the bar  
you shake a little low  
you're dancing to the music  
girl just take it slow  
tempo speeds up like that  
no time reverse the track  
we gonna dance you cant stand a girl like that

Bridge:

see the stars were dancing in the air tonight  
the lights were flashing on your face and I  
feel my heart is racing - is this passion real?  
the moments perfect - and the night is still
