Someone's Daughter

The Whigs

They're comin' out like hungry wolves into the night
They'll satisfy all your instinctual desires
You'll battle em' off and they'll come back to you for more
How did I get back here again, how did I get back here again

I know what she wants from me
I cannot forget that she is someone's daughter
I know what she wants from me
I just want to spend tonight with someone's daughter

If I had known there was an easier way to die
Without the burden of the guilt that I can't find
I wonder if the things we did last night were wrong

I know what she wants from me
I cannot forget that she is someone's daughter
I know what she wants from me
I just want to spend tonight with someone's daughter

she got what she needs from me
now I'll say goodbye to her she's someone's daughter
she got what she needs from me
I can't give her anymore she's someone's daughter

someone's daughter
someone's daugther
someone's daughter
