

Apocalypse WOW!

Reggie and the Full Effect

Let's get it on I think it's been too long
For this to all go wrong
You lost but thought you'd win
I won't try this again You played yourself in front of me
To save yourself some dignity
And if you die before you should
At least you know that you'll look good So tell me how's the rest?
I'm fine with second best
It's all that I can say
Not coming back this way For all the kids you say you hate
But now you say it's only fate
So if you die before you wake
I pray the Lord, you're not a fake You'll never be ready for me
You'll never be ready for me So this is how it ends
Redefine all your friends
It doesn't have to be
This way for you or me You played yourself in front of me
To save yourself some dignity
And if you die before you should
At least you know that'll you'll look good You'll never be ready for me
You'll never be ready for me
