

The Morning

WhoMadeWho

Verse 1:

In the mornings, I was filled with joy and laughter
In the evenings, I would cry myself to sleep
I was dreaming of the great forever after
Dreaming of windmills and of swimming in the sea

Chorus:

Times were changing faster,
that I never understood...
Days would turn to evenings
turn to nights and disappear

Verse 2:

I was living mainly in the city
Though I have been a country boy before
I did everything, very young and silly
Just because I found my life to be a bore

Chorus:

Times were changing faster,
that I never understood...
Days would turn to evenings
turn to nights and disappear
