Foot Prints

Yes

My eyes see the coming revolution
My eyes see the glory of the world
My eyes see the coming revolution
My eyes see the glory of the worldMy eyes see the coming revolution
My eyes see the glory of the world
My eyes see the coming revolution
My eyes see the glory of the world(Only when you stop to listen)
Looking for the mystery in the woman
(Only when you start to see)
Dancing with the teacher in the circle
(Only when you want direction)
Watching for the reasons we are going
(Only when you stop to listen)
Getting ready for the big bangEverybody looking for that great connection
Somebody help me find that universal dream
Everybody watching, is something happening?
See what I mean?(Only when you stop to listen)
Looking for the real man
(Only when you stop to breath)
Looking for the teacher
(Dancing with the majesty of knowing)
Dancing with the circle
(Only when you start to see)
Looking for the real worldEverybody knows where we're going to
Don't forget to leave good footprints behind
Never let the grass grow over your soul
Only time will tell, leave good footprints behindI have seen the way
The way is clear
To save your loveHigh upon the sky
The force has come
To break you freeForgiving is what you have
Forgiving is what you see
Forgiving is what you know
Forgiving is all you areI have seen the way
The way is clear
Beyond your soulI have seen the way
The way is clear
To save your loveHigh upon the sky
The force has come

To break me freeForgiving is what you have
Forgiving is what you see
They say the soul
Has so many lifetimesMy eyes see the coming revolution
My eyes see the glory of the worldOnly when you stop to listen
Only when you start to seeForgiving is what you have
Forgiving is what you see
Forgiving is what you know
Forgiving is all you areI have seen the way
The way is clear
To save your soulI have seen the way
The way is clear
Beyond your soulMy eyes see the coming revolution
My eyes see the coming revolution
My eyes see the coming revolution
My eyes see the glory of the world
My eyes see the coming revolution
My eyes see the glory of the worldDon't forget to leave good footprints behind
Don't forget to leave good footprints behind
