We All Bleed

Crossfade

Do or die
Can't you feel it in your heart?
Shooting blood under your skin
It's all around youDo or die
Don't you feel it in your soul?
Blaming me for all that's wrong
Or is it all you?Do or die
Could have taken them all
Sixteen marks on your skin
Where did I go wrong (Where did I go)
You would choose suicide
I can see it in your eyes
No more pills for you to swallow
And no tomorrowThis hate is bleeding in front of me
Confused and bleeding in front of me
Your life, bleeding in front of me
We all fucking bleed so just let it go
(Let it go)I was higher inside from the start until the end
So where do I begin? (Where do I begin?)
Another vacant heart dreams of beautiful lies
Filled with emptiness and sorrow
But no tomorrowThis hate is bleeding in front of me
Confused and bleeding in front of me
Your life, bleeding in front of me
We all fucking bleed so let it goDo or die
Can't you feel it in your heart?
Shooting blood under your skin
It's all around youLive a lie
So that no one else will know
Don't ever let the blood flow
But it was all for showJust let it go
Let it goWe're all fucking freaks
So just let it go
