

# I Like the Sun

Rick Astley

I can see a rainbow  
I can see a rainbow overhead  
I can see a rainbow  
I can see a rainbow overhead It's my life  
And I've only got one  
It's my time  
Want to spend it in the sun  
Bring beats down  
Like a thousand tiny drums  
Watch the street  
And a poison river runs Too much  
We've too much time  
Waiting for the right time  
Too much  
We've too much time  
Waiting for the sunshine  
Too much  
We've too much time  
Waiting for a reason  
Too much  
We've too much time  
Waiting  
I like the sun  
I like the sunshine I like the sun  
I like the sunshine  
My fate  
I'm trying to find the light on my face  
Turn my back upon the night  
Rain, it falls Like a blanket on the ground  
Covers me  
I scream but make no sound Too much  
We've too much time  
Waiting for the right time  
Too much  
We've too much time  
Waiting for the sunshine  
Too much  
We've too much time  
Waiting for a reason
